Experience

Frontend Developer, Globerce Capital   Jule 2025 – present
Full-time, Almaty (on-site)

In just two months, I implemented an event tracking system for the SuperApp conveyor, enhancing visibility and analytics. Additionally, I improved the UX of Freedom Cartomat by integrating a seamless SuperApp-based authorization flow.

Frontend Web Developer, InBoost   Dec 2024 – May 2025
Full-time, Almaty (part-time/on-site)

Built and maintained responsive user interfaces in bound of intensive short distance. Collaborated closely with product teams to ship features on time and improve UI performance.

Frontend Developer, Oitech.io   June 2024 – Apr 2025
Full-time, Almaty (on-site)

Improved client workflows for companies like ZebraCoffee and Nazdar Flowers. Integrated Google Maps API for optimizing delivery logistics and improving the ordering experience. Refactor codebase and make it more maintainable, implement own component library.

Software Engineer, inDrive (Spark Lab)   Dec 2023 – June 2024
Internship, Almaty (Hybrid)

Developed a real-time system for monitoring the fullness of charity clothing bins(Teplo project). Created an admin panel and a Telegram bot to manage devices and receive alerts. Participated in architectural decisions, tech stack selection, and project planning.

Frontend Developer, Astana IT Group   Feb 2023 – Dec 2023
Freelance, Remote

Built an e-commerce marketplace platform from the ground up with self designed UI/UX. Implemented dynamic product listings, real-time filtering, and secure checkout flow. Designed a scalable UI architecture for future B2B integrations and multi-vendor support.
